

Seldar

“We are given 100% positive energy, but we waste 50% of it on negative emotions. Work on keeping all of the positive and you will see great changes.”

Seldar is a naturally gifted healer. When working, Seldar enters a state in which he literally becomes one with his client. Having the ability to travel between two bodies, his own and the person he is working on, Seldar is able to see the composition of the client’s cells and DNA. During the session he is able to differentiate between normal and degenerative cells and perceive changes on the genetic level.

Seldar can repair defective genes and connect the client’s genetic and cellular blueprint with their personality and beliefs. By relating the meaning of their physical pain or imbalance Seldar encourages people to start thinking and acting differently. Clients become emotionally balanced and peaceful which helps them in overcoming their physical problems.

Journey toward improved health and wellness with gifted healer, Seldar

Seldar has a gift.....of becoming you and reading the energy of your DNA. His gift is his ability to reconfigure degenerative cells and to recreate a new experience that lifts you out of pain and suffering.

Simply, Seldar can experience your disease, on all levels: emotional, mental, physical, spiritual, and intuitive.

His approach is soft and gentle. He affirms and inspires our own healing through movement of energy. This miracle is an experience that exists beyond the realm of the written or spoken word.

You are invited to experience the miracle of Seldar.

TESTIMONIALS

"I came to Seldar with the diagnosis of benign cystic lesion 4.4 x 3.3 cm in the region of the pancreas. I was scheduled for major surgery in two weeks. After my first healing session I felt much better, my mood changed too, like some light entered my world. I postponed surgery, hoping to avoid it. Three weeks later I asked the doctor to check the condition of the lesion. I was happy to find out it had completely disappeared. Thank you, Seldar, for making it possible." **A.G. 57 yrs old**

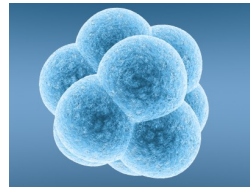

"Seldar helped my son battle asthma. My son was sick for several years.

Unbelievable, but my son is now cured! This miraculous relief is something we prayed for a long time. From the bottom of our hearts. **WARMEST THANK YOU!!!!**" **Emily K.**

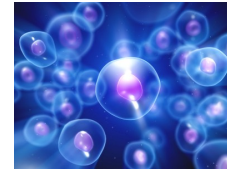

"Dear Seldar, thank you so much for your help with depression I suffered from for two years. Your sessions gave me new life. I am full of energy, hopes and happiness. You are doing much needed work in our world, helping people to find new direction in life." **Katherine A.**

"I came to Seldar with complaints of kidney stones (5mm). After five sessions the stones disappeared completely, my energy went up incredibly and my outlook on life was changed dramatically to the better." **Ludmila S.**

"I called Seldar after I had suffered for eight months with a broken leg. I slipped and fractured both my tibia and fibula. As each month went by, neither bone was showing any signs of healing. After six months a CT-Scan revealed that both bones were still broken with no bone growth. I was worried I would have to have another surgery and called Seldar. He saw me the following week. When I went in I could not bear weight on my leg without pain. After my first session I was able to walk (with one crutch) without pain. I had a total of four sessions with Seldar before my next x-ray, which revealed my fibula had begun to grow. I had a second CT-Scan which showed both bones were healing. I can now walk short distances without my crutches. Since my sessions I have not been in pain." **Christine, DesPlaines**

CELLULAR /DNA HEALING

Seldar lives simultaneously in a deep state of consciousness and a

high level of awareness where he is in Oneness continuously. From this reality of Oneness, he is able to "see and interact" with an individual's molecular and energetic composition because there is no separation. As a result, he realizes the core patterns within a person that keep them "stuck" and is able to shift these patterns, raising the vibrational frequencies that correct imbalances and that begin the process of core, RNA healing.

"People come to me with a wide range of emotional, mental and physical problems, from minor to terminal. If you wish with all your heart for healing to happen, you will be able to heal. You will also see improvements in many areas of your life, not only health."

"The amount of time needed to heal depends on your situation and your ability to change on the level of the mind. But you will feel improvements right after the first session."

"Each of us is unique and shares the same spirit that was given to us by the universe. My mission is to assist you in understanding the meaning of life based on my visions and on my science."
